

# Exotic Companion Mammal RVS Exam Study Guide - 2024

This guide will help you prepare for your ABVP Recognized Veterinary Specialty (RVS) examination this November.

The 350 item Combined RVS Exam given in two parts on the same day. The exams are mostly to exclusively multiple-choice. There is the possibility of fill in the blank, short answer, essay, or matching for some exam items.

The AVMA best practices is that the examination items align with a Job Task Analysis (JTA) of current RVS Diplomates. The 2018 JTA identified tasks, diseases, etc. that Diplomates either saw frequently or expected a Specialist to have immediate knowledge of the subject.

Additionally, it has been decided that some exam items can come from current journals and a small percentage can be at your Exam Committee's discretion.

Please note that items drawn from current journals (with a 5 year look back period) are 1) from a journal on the RVS Reading List, 2) the question is drawn from the abstract only, and 3) the journal abstract must be inexpensively obtained. The exception to this is Veterinary Clinics of North America, where the exam taker is responsible for the whole article.

## Exam Blueprint

For topics that are systems (such as Cardiovascular, etc. ), questions can include anatomy, physiology, pathophysiology, diseases (Including neoplasia), etiologies, diagnosis, and therapy.

Myomorph/sciuromorph rodents: 15% of the exam is in these species

<i>Topics covered for this species on exam</i>	
Behavioral B	5%
Cardiovascular CV	1%
Endocrine E	Up to 1%
Gastrointestinal GI	15.0%
Genetic G	Up to 1%
Hemolymphatic HL	Up to 1%
Immunologic I	Up to 1%
Infectious IN	10%
Integument/Mammary IM	33.0%
Management/Environment ME	Up to 1%

Metabolic M	Up to 1%

## Specific conditions

Certain conditions were identified as important to Diplomates in your RVS. This list is meant to help guide your study and not meant to be an all-inclusive list. Conditions not on this list may be present

## Ferret Exam Topics

Adrenal Disease and Complications
Anorexia
Ataxia
Benign Neoplasia
Canine Distemper Virus
Cardiomyopathy
Cataracts
Chordoma
Colitis
Eosinophilic Enteritis
Epizootic catarrhal enteritis (ECE)
Gastritis
Glomerulopathy
Helicobacter mustelae Infection
Hydronephrosis
Hyperestrogenism
Hyperthermia
Hypertrophic Cardiomyopathy
Influenza
Insulinoma
Intervertebral Disc Disease
Liver Disease
Lymphoma
Pneumonia - infectious
Polycystic Kidneys
Posterior Paresis
Prostatic Diseases
Pyometra
Renal Calculi
Renal Cysts
Renal Disease

Sarcoptic Mange
Seasonal Alopecia
Splenomegaly
Urethral Obstruction
Urolithiasis
Vaccine Reactions
Valvular Heart Disease

## Rabbit Exam Topics

Abscess
Barbering/ self mutilation
Chronic rhinitis
Dental disease - acquired
Dermatitis
Dermatophytosis
Dysbiosis
Ectoparasites
Encephalitozoonosis
Endometrial Venous Aneurysms
Gastrointestinal disease
Inguinal herniation
Liver torsion
Otitis
Pneumonia
Spinal/vertebral diseases
Treponema
Urolithiasis
Uterine adenocarcinoma

## Guinea Pig Exam Topics

Alopecia
Cervical lymphadenitis
Dental disease - acquired
Dysbiosis
Endoparasites
Enteritis
Gastrointestinal disease
Hypovitaminosis C
Malnutrition

Mammary gland tumors
Osteoarthritis
Otitis
Ovarian cysts
Pneumonia
Pododermatitis
Renal disease
Scrotal plugs
Urolithiasis
Vestibular disease

## Rodent Exam Topics

Alopecia
Barbering
Chromodacryorrhea
Conjunctivitis
Dental disease - acquired
Dermatophytosis
Ectoparasites
Exophthalmos
Fur ring and paraphimosis
Fur slip
Intestinal torsion and impaction
Lead poisoning
Mammary tumors
Proliferative ileitis
Rectal prolapse
