

## Shelter Medicine Practice RVS Exam Study Guide – 2025

This guide will help you prepare for your ABVP Recognized Veterinary Specialty (RVS) examination this November. The 350 item Combined RVS Exam is given in two parts on the same day. The exams are mostly to exclusively multiple-choice type items. There is the possibility of fill in the blank, short answer, essay, or matching for some exam items.

The AVMA best practice is that the examination items align with a Job Task Analysis (JTA) of current RVS Diplomates. Shelter Medicine Practice utilized subject matter experts to develop the JTA. Additionally, it has been decided that some exam items can come from current journals and a small percentage can be at your Exam Committee’s discretion. Please note that items drawn from current journals (with a 5 year look back period) are 1) from a journal on the RVS Reading List, 2) the question is drawn from the abstract only, and 3) the journal abstract must be freely available. The exception to this is Veterinary Clinics of North America (if applicable), where the exam taker is responsible for the whole article.
